## About Ophthall

Ophthall is India's Only and Largest Practice Development Organisation for Ophthalmologists with more than 3000+ Active Members. Ophthall helps independent practices with business support and advisory services and grow to the next level

## Ophthall Buying Group

Group purchasing or group buying is a simple concept that adheres to the mentality of "power in numbers". In essence, groups of buyers come together and leverage their size to gain access to large discounts on products or services. In Indian Eye Care Market, most of the purchases are individual purchases and very rarely there has been small unorganized group purchases, hence individual practices have never been able to leverage the power of group buying.

While many corporate Eye Care Chains have been able to aggregate purchasing within their own groups, individual Eye Hospitals have not historically had a platform where they could organize themselves for group buying.

Ophthall Buying group is the first Organized platform for Ophthalmologists to combine and make their purchases.

Ophthall undertakes manufacturing of top-Quality Products with its manufacturing partners for products such as Microscopes, Autoclaves, Lenses, A-Scan, Slit Lamps and has partnered with world class Manufacturers as trade partners to provide products to our group members in bulk. To become a member of Ophthall Buying group and save in your purchases log on to [www.ophthall.in](http://www.ophthall.in)

## Ophthall Trade Partners

# **OPHTHALL PRODUCTS**

---

## **OPHTHALL MICROSCOPES**

Our Flagship Product Ophthall Surgical Microscopes was born out of the need for a Top Quality Yet Affordable Microscope for the Indian Ophthalmologist. Ophthall microscopes come in various models and are made in India with Imported Optics.

Now Every Ophthalmologist in India can Own a Surgical Microscope and start his own OT. These microscopes are exclusively manufactured for Ophthall by experts with more than 30+ Years Experience in Surgical Microscope Manufacturing Technologies.

### **Models Available**

**Ophthall Pro Microscope / Ophthall Max- Microscope  
Ophthall Zen -Microscope**

---

## **Ophthall Glo Master**

### ***Ophthall- Ophthalmic Surgical Microscope Red Glow Enhancement Device***

90% of Ophthalmologists use entry level Microscopes. These basic microscopes do not provide optimal Red glow and illumination and hence many Ophthalmologists operate with these basic features which also indirectly affects the outcome of the surgery.

**Ophthall- Redglo Enhancer** addresses this problem faced by many Ophthalmologists across the world and this wonder device converts a very basic surgical microscope to a advanced one. The device provides improved Redglow, Illumination, Steropsis and Depth Perception

## **OPHTHALL SURGICAL VIDEO RECORDING SYSTEM**

Most Economic HD Recording System for your Surgical Microscope  
OPHTHALL-VID is the most technologically advanced Surgical Recording system available in the market today.

### **Recording System Benefits**

- Documentation of Surgical Procedures
- For Presentation in Conferences and Seminars
- To showcase surgical procedures for patients and attendees during counseling process.

Ophthall Vid consists of C mount, Beam Splitter and ESC HD Camera with 16 GB build in memory capacity and can be customized for any microscope.

## **OPHTHALL REICO AUTOCLAVES**

**CAPACITY:** 23 Litres. Chamber: SS316 L Types of Cycles Process: Class B- Model Air Filter : An air filter is provided for filtering the atmospheric air before entering inside the chamber .The filter separation efficiency is higher than 99.998% for particle size less than 0.3µm. Automatic Cycle programs: 9 Cycles 134°C Wrapped. 121°C Wrapped. 134°C Un wrapped. 121°C Un wrapped. Plastic Cotton Prion Test Programs :Leak Test programs

### **Models Available :**

**OPHTHALL REICO BENCHTOP AUTOCLAVES :** 23 liters.

**OPHTHALL REICO VERTICAL AUTOCLAVE :** 35 Liters ,75 Liters and 95 Liters.

**OPHTHALL REICO HORIZONTAL AUTOCLAVE :** 42 Liters ,75 Liters, 110 Liters, 150 Liters, 175 Liters and 235 Liters.

**OPHTHALL REICO ETO STERILIZER :** 54 Liters ,100 Liters, 200 liters and 250 liters.

## **Ansell Surgical Gloves**

**Available Sizes 6.0, 6.5, 7.0, 7.5, 8.0, 8.5**

### **KEY FEATURES AND BENEFITS**

20% thinner on average than Ansell's standard latex powder-free surgical gloves with soft latex formulation for unsurpassed dexterity and tactile sensitivity  
Its brown color helps reduce glare of surgical lights and makes it suitable to be used as an underglove

## **Ophthall Vision Chart**

**India's Only Customizable Vision Chart with your Hospital Name/ Image added in First Screen of the Vision Chart**

Ophthall Vision Chart is a Simple Economical Vision Chart for your Hospital/ Clinic. These charts are manufactured as per the set industry standards using premium quality monitors. Ophthall space saving charts have high resolution and are suitable for contrast sensitivity tests.

The offered vision charts are tested on various quality parameters and are appreciated for their features like durability, high brightness, fine finish and light weight.

**Models Available : Ophthall –Pro 19 Inches & Ophthall Max 22 Inches**

## **Ophthall Double Aspheric Lens**

**Ophthall Double Aspheric Diagnostic Lenses- Most economical top Quality Lenses for your Ophthalmic Practice**

1. Ophthall Lens provides an extended working distance from cornea.
2. Non Contact Slit Lamp Lens is intended for general diagnosis and laser treatment.
3. Featuring patented double aspheric glass optics that provides excellent imaging of the funds with balanced magnification to view the optic disc and macula.
4. A high magnification provides an increased illuminated field area which makes it ideal for posterior pole scanning.
5. With Anti Reflection Coating

**Lenses Available : 90D, 78D, 60D, 28D, 20D**

To Know More About Our Product Log On To : [www.opthallmart.com](http://www.opthallmart.com)

### **Ophthall 2 Mirror Gonioscope**

1. This Gonio lens incorporates 2 opposing mirrors angled at 62 Degrees
2. The retinal viewing mirrors are accurately angled and spaced to eliminate "gaps" in the visualized fundus.
3. The central portion of the lens also provides direct observation of the central portion of the posterior pole.
4. This lens is available in 18 mm. (Advanced No Fluid, ANF) contact design or the 15 mm. "No Flange" version for use on infants and patients with narrow palpebral fissures.
5. With Anti Reflection Coating

### **Gonioscope Mirrors Available :**

**Single Mirror Gonioscope , 2 Mirror Gonioscope, 3 Mirror Gonioscope & 4 Mirror Gonioscope**

### **Ophthall Trial Lens Set**

Ophthall Trial Lens Set is an attractive set, prepared from imported extra white lenses of high standard accuracy. The plus and minus mounts of different colors. Handles are provided on spheres. The lens tray rises automatically. When opened with light control. The case is an attractive colored acrylic top with double lock.

### **Product Specification**

1. Spheres: 40 pairs each of concave and convex 0.25D to 6.00D in 0.25 steps 6.50D to 10.0D in 0.50 steps 11.0D to 15.0D in 1.00 steps 16.0D to 20.0D in 2.00 steps
2. Cylinders: 20 pairs each of concave and convex 0.25D to 4.00D in 0.25 steps 4.50D to 6.00D in 0.50 steps
3. Prisms: 12 pieces 0.5(2) 1.0 to 10.0 in 1.0 steps
4. Accessories: 14 pieces RF GF BL PL(2) MR(2) FL CL(2) PH(2) SS PF Cross cylinder  $\times 0.25$   $\times 0.50$

**Models Available : Ophthall Pro & Ophthall Max**

## **PRODUCTS OF OUR TRADE PARTNERS**

### **Catarhex 3 Easy Phaco Machine**

**Ultraportable Device for Cataract Surgery**  
CataRhex 3®easy employs components and design concepts proven under harsh conditions in hundred thousands of surgeries every year in India. CataRhex 3®easy masters 2.2 mm and 1.6 mm incision sizes too, thus making you ready for the implantation of future premium IOLs.  
With CataRhex 3®easy you can reduce the incision to 2.8 mm – 3.2 mm, a size which is perfectly astigmatism neutral when done scleral.

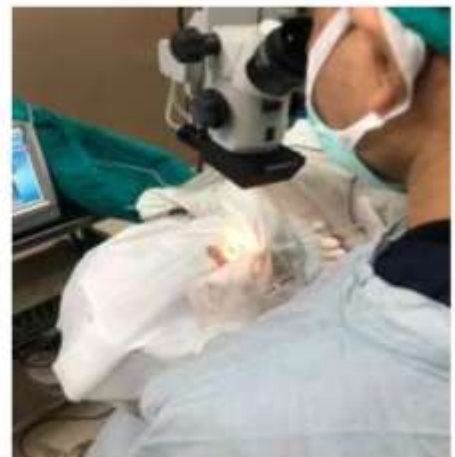

#### **Models Available :**

**Catarhex 3 Easy Phaco Machine & Oertli CR3 with SPEEP Phaco Machine**

### **Omniglo – Ophthalmic Surgical Microscope Red Glow Enhancement Device**

Ophthalmologists in Developing countries can afford to buy only the basic models of surgical microscopes. These basic microscopes do not provide optimal Red glow and illumination and hence many Ophthalmologists operate with these basic features since they could not afford the advanced models . Omniglo was invented by an Ophthalmologist to address this problem faced by many Ophthalmologists across the world and this wonder device converts a very basic surgical microscope to a advanced one. More than 1000+ Ophthalmologists use this device all over the world.

- 1) It Gives a Omnipresent , Homogeneous Red Reflex in any tilt / position of Eye Ball and in any size of the Pupil. There is full redglow even in Undilated pupil as small as 2 mm
- 2) Stereopsis enhancement is so good that just to describe even a Hypermetropic Eye with shallow chamber will look like a Myopic Eye.
- 3) Phase Contrast very helpful in critical steps such as capsulorhexis, trench depth control, IA of cortex,PC Polishing etc.

## **HEIDELBERG ENGINEERING- SPECTRALIS OCT**

Spectralis Spectral-Domain OCT Heidelberg Multi-modality imaging with SPECTRALIS® is a unique ophthalmic diagnostic imaging device used primarily to examine the structures of the retina, macula, and optic nerve.

### **Product Features**

1. Enhanced anatomical and image details from TruTrack™ active eye tracking and simultaneous dual-beam imaging
2. BluePeak™ blue laser autofluorescence enables imaging of lipofuscin distribution providing a functional map of RPE metabolism
3. HEYEX™ image management software
4. Pre-set scan patterns and AutoRescan™ automatically places follow-up scans in precisely the same location, bypassing operator variability
5. The Posterior Pole Asymmetry Analysis highlights thickness differences between eyes and between hemispheres of individual eyes.
6. FoDi™: fovea-to-disc alignment technology for more precise RNFL and ONH assessment.

## **Ellex Ultra Q Yag Laser**

The Ultra Q™ is the industry's leading microsurgical YAG laser, optimised for both anterior and posterior Nd: YAG laser treatments. Whether you are performing capsulotomy with new generation IOLs, peripheral iridotomy for glaucoma or Nd:YAG laser vitreolysis for the treatment of floaters, the Ultra Q™ delivers higher accuracy and greater control.

### **Product Features**

1. Efficient Energy Delivery: the Ultra Q's Ultra Gaussian spot profile and fast rise time enable you to perform capsulotomies and iridotomies at lower, more efficient energy levels. This makes it possible for you to cut tissue more efficiently, using fewer shots and less cumulative energy.
2. Faster Treatment: with the industry's fastest firing rate at 3 Hertz, the Ultra Q saves you time and allows you to perform quick and highly accurate treatment.
3. Better Performance Over the Long-Term: the Ultra Q's solid-state Q-switch is life-tested to deliver 400,000 shots, and does not deteriorate over time like other YAG Q-switches. As a result, you will experience better performance, and a dramatic reduction in long-term operating costs.
4. Pinpoint Precision: with a tolerance range of  $\pm 8 \mu\text{m}$ , the Ultra Q's fine, two-point focusing system makes it easy for you to ensure that the system is always in focus, and that energy is delivered where you intend in relation to your target.

## **Advanced Vision Analyser- Portable VR Perimeter**

**Portable Perimetry** Now you can perform perimetry without a traditional exam lane or high-cost capital equipment. The AVA Advanced Vision Analyzer is a small, battery-operated autoperimeter that can perform visual field threshold measurements. And not only is it completely portable, but it does not require a separate dark room.

### **Product Specifications :**

#### **Patient Friendly Device**

The light-weight head-mounted device allows a high degree of flexibility in in-patient position. They can even take the test reclined. This is particularly advantageous for aging and disabled patients. The AVA Advanced Vision Analyzer also generates a patient-friendly version of the report that helps you explain the diagnosis better.

Administer the test in just a few clicks. The automated, intuitive system is simple enough that even non-eye care professionals can learn how to use the AVA Advanced Vision Analyzer quickly.

## **LABOMED – HS MODEL 5 STEP SLITLAMP**

The eVO 450 delivers a streamlined design with high precision apochromatic optics for accurate anatomical observations, corrected for spherical and chromatic aberrations to ensure comfortable and reliable use.

Eco-friendly illumination options, lead-free high dispersion glass, paints and materials minimize the system's environmental impact without sacrificing performance and durability. The eVO 450 represents all that a slit lamp should be.

### **eVO450 Specifications:**

- Tower illumination type
- Galilean optical design
- 5 Step magnification 6.5x, 10x, 16x, 25x, 40x
- Wide field eyepieces 12.5x, diopter adj.  $\pm 5$  mm
- Slit size 0-12mm
- Slit apertures: 0.3, 1, 3, 5, 9, 12mm and continuous 1.5 to 12.0 mm
- Slit Rotation 0 – 180°
- Slit Inclination 0-20°
- Filters: Red free, Cobalt blue, Heat absorbing, Neutral density, Yellow filter (Wratten)
- HD Camera attachment is optional

### **Models Available**

- |                                      |   |
|--------------------------------------|---|
| 1.Labomed – HS Model 5 Step Slitlamp | 3.Labomed – Zeiss Model 5 Step Slitlamp |
| 2.Labomed – HS Model 3 Step Slitlamp | 4.Labomed – Zeiss Model 3 Step Slitlamp |

## **Practice Management Consulting Services by Ophthall Practice Development**

We offer Ophthalmic Practice Management consulting services and provide Strategy, Operations, and marketing assistance to private, nonprofit, and corporate clients in India and Worldwide with our team of experts.

We support Ophthalmologists ranging from new startups, single owner practices, group practices, corporate hospitals, to high-volume market leaders, teaching centers and medical equipment, pharma companies.

### **Services include:**

- Strategic Planning
- Company Formation, Partnership Agreements
- Operations Management ,Enhancement & Integration
- Group Practice Formations.
- Marketing Assistance/Management
- Cost Benchmarking & Containment
- Practice Turnarounds
- Mergers/Acquisitions
- Institutional Ventures
- Co-Management Programs
- Leadership Skills Development
- Succession Planning
- Practice Valuation
- Staff Evaluation & Training
- Dispute Mediation and Resolution
- Recruitment Guidance
- Accreditations Guidance.
- Medical Tourism
- Bulk Purchase

## **INFECTION CONTROL CONSULTANCY FOR EYE HOSPITAL OT**

**Ophthall Infection Control and Prevention Consultancy Services for Eye Hospitals tailored to specific needs of Individual Hospitals. A variety of expert services are offered by highly experienced consultants certified in infection control Services, and Microbiologists.**

**Whether you are building a OT with focus on Infection Control or want to Implement these procedures for your existing OT please do get in touch with us.**

Implement Top Quality Infection Control Protocols for your Ophthalmology OT with consultancy support from specialists who are in the infection control field with more than 3 decades of Experience.

### **Construction Phase**

Right from Designing your OT and CSSD – our specialists will guide you on setting up protocols for Infection control and also to procure the right Equipment's and Consumables.

### **On Going Phase**

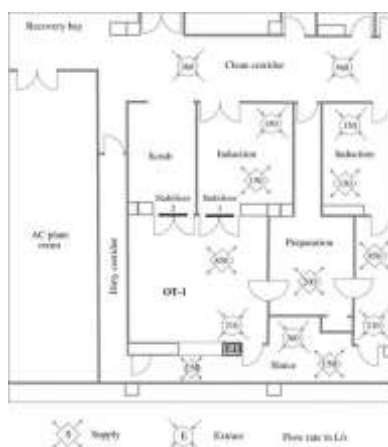

In case you have been encountering infections in patients frequently and want to identify lacunae in existing systems you can ask our Consultants to guide you

### **Mode of Delivery**

- Online
- On Site Visit
- Remote Monitoring

---

## **OPHTHALL OPERATION THEATRE DESIGNING**

Designing of Operation Theatre and placement of Rooms such as Changing Rooms- Patient Recovery, Toilets, Autoclaves and Doctor Lounges is important Exercise.

Professional Designing for Operation Theatre- as per NABH Standards will be done by our Experts. Please get in touch if you would like to avail this service.

---

## **OPTICAL STORE DESIGNING / CONSULTANCY SERVICE**

**A-Z services available for Optical Store Designing/ Consulting in your Hospital. Experience of more than 100 Projects all over India.**

**Design your Optical Showroom as per International Standards.**

Services available

- 1) Space Planning
- 2) Optical Shop Layout
- 3) 3D Design.
- 4) Optical Shop Interiors- Execution Support
- 5) Frames/Lenses Procurement assistance

---

## **Ophthalmic Equipment Purchase Consultancy**

### **Planning a Eye Hospital?**

Outsource your Equipment Purchase to us, our team of Experts will guide you on the Equipment and help negotiate with vendors. You will be able to save lakh's of Rupees and time.

### **PURCHASE CONSULTANCY FOR ALL OPHTHALMOLOGY EQUIPMENTS FOR NEW/ EXISTING SET UPS**

Looking for One or Multiple Ophthalmology Equipment's and Not knowing who is the dealer or what is the correct price and need more support to negotiate the deal- We will support you to get the best price for any equipment through our expert team.

## **TESTIMONIALS OF OUR BUYERS**

Gajanan Pendkar – April 5, 2022

★★★★★

" I am a user of Ophthall Microscope for the past one month. Very good product and value for money. Thanks to Ophthall for bringing such a product which helps all Ophthalmologists to own a microscope. We request ophthall to bring more products like this"

Sandeep patil – May 5, 2022

★★★★★

Value for your money excellent optics great depth perception in phaco.. ideal microscope not only for beginners but for everyone.. myself a proud owner of ophthal pro microscope...

Dr Venkatesh Reddy – April 27, 2022

★★★★★

Yesterday i had demo of Ophthall Red Glow Master Device on my Lumera 300.. its easy to do rhexis without trypan blue and very helpful in cortical wash & iol implantation in bag. Overall experience is gud n economically reliable. Many thanks to Dr.senthil n his team for coming up with this device

Dr.Venkatesh Reddy  
Ushodaya Laser Eye Hospital  
Medchal Telengana

Udhaykumar – February 28, 2022

★★★★★

Bought Omniglow through Ophthall buying group . I got a better price because we bought it through Ophthall Buying group. They had an excellent team and were coordinating until it was installed. Superb service. Excellent product. Fitted it on a 14-year-old Zeiss 1 fr. For anterior segment surgery, it's amazing Tks Dr. Senthil for your help Dr Udhay DRR eye hospital Poonamalle Chennai

Dr Kshijit Shukul – March 8, 2022

★★★★★

Recently Installed Oertli Catarhex 3 phaco machine,Thanks Dr Senthil and the entire Ophthall team for helping me in procuring the machine at the right price. It is a real boon for all beginners and small practioners. Dr. Kshijit Shukul, Lucknow.
